

Watershed Alliance Open House

Attendees at the South Grand River Watershed Alliance 2nd Annual Open House had an opportunity to become acquainted with some of the roles that many federal, state and local agencies and local organizations have in managing and protecting our water resource. The Open House was held March 27 at the Lions Community Center, Peculiar, Missouri.

Representatives from the Missouri Department of Conservation, Missouri Department of Natural Resources, U. S. Environmental Protection Agency, Federal Emergency Management Agency, Mid-America Regional Council, Ray-Pec Eighth Grade Science Class, Quail Unlimited, Missouri Prairie Foundation, Missouri Stream Teams, Little Blue River Watershed Coalition, Missouri Floodplain and Stormwater Managers Association, Cass County Sustainability Committee, the South Grand River Watershed Alliance and the Office of Congressman Emanuel Cleaver were present to discuss how their agency or group is involved with water quality. There were many interesting displays along with brochures and other information explaining not only the role of the agency or group but also actions that each of us can take to protect and restore water quality and quantity.
